Email campaign targeting, segmentation, and creative support

IQVIA brings a high level of experience and strategy to email marketing. We facilitate an average of 100 campaigns per month, reaching millions of providers at all healthcare site types. With more than 2.4 million opt-in email addresses linked to full provider profiles, OneKey is your go-to database for digital campaigns.

Campaign support for agencies and clients

- List selection and segmentation
- Message and rendering previews
- HTML design and coding
- Compliance adherence
- A/B testing recommendations
- Reporting and impact measurement.

Terms of engagement: choose from these two options

OPTION 1: EMAIL DEPLOYMENT

We'll send **emails on your behalf** using the OneKey email platform

OPTION 2: EMAIL RELEASE

We'll send you a list of OneKey emails to **use through your own email platform**

Email acquisition and maintenance process

STEP 1

Acquisition

- OneKey acquires emails through various sources, including proprietary course, and partnerships

STEP 2

Permission

- Clearly identify the company sending the email
- Comply with the CAN-SPAM Act

STEP 3

Opt-out

- When permission is denied (professional has opted out), OneKey does not include the email address in the database

STEP 4

Maintenance

- OneKey performs ongoing maintenance of the email database in a variety of ways – from ping testing emails to removal of hard bounces
